Devon&Devon

CREATED IN FLORENCE. INSPIRED BY THE WORLD.

Made of high-quality, PVC-free, woven fibreglass that is totally resistant to the formation of mould, these new wallpapers are the ideal solution for unique and extraordinarily spectacular walls even in damp rooms or in direct contact with water, such as in shower cubicles, next to bathtubs and sanitaryware, or in kitchens and spas. Their durability and resistance to scratches, wear and tear and fire, together with their ease of installation and care, make these papers especially suitable for both top-end residential contexts and exclusive hotels.

Available in a huge selection of patterns, the new Devon&Devon fibreglass wallpaper collection includes all the graphic designs created for the brand by Francesca Greco,

Marcel Wanders and Vito Nesta, a new colour version of the iconic Samoa paper (now also available in Blue) and the brand new Florence wallpaper, a Devon&Devon project that pays homage to the beauty of the architecture and scenery in the city that gave birth to the brand in 1989. Florence is available in the Seppia and Green colourways, either in fibreglass or on a vinyl base.
