BLUES WHITE TEC PLUS

*The new sustainable version
of a timeless icon*

Always among the most iconic products of Devon&Devon style, Blues is an elegant 1- or 3-hole washbasin characterised by a sculptural volume and minimal geometries inspired by the American design of the **1920s and 1930s**.

Devon&Devon

CREATED IN FLORENCE. INSPIRED BY THE WORLD.

In addition to the traditional ceramic version, Blues is now also available in a new version made entirely of **White Tec Plus**, a material as smooth and **sleek** as natural stone and **Green Guard Gold**-certified by LEED®

A unique style, in three forms

The Blues White Tec Plus washbasin fits harmoniously into any setting and can be coordinated with all the Devon&Devon tap collections. It can be installed **on a pedestal** or incorporated into the **Blues console in aluminium** (whose design recalls the chrome grilles of the most exclusive classic cars) or the **Single Memphis console in turned brass** (inspired by 1950s American design).

White Tec Plus

100% made in Italy, produced exclusively for Devon&Devon. Beautiful to see and touch, it has a **smooth surface**, similar to that of natural stone. Environmentally sustainable, it is **certified Green Guard Gold** by LEED® and contains Biobased® plant-based resins derived from corn starch. Created to stand the test of time while retaining its beauty intact, it is easy to clean and does not yellow with age. Titanium dioxide is added to the compound of this innovative mix, its well-known photocatalytic property enabling an antibacterial and antiviral action that results in healthier environments.
