TRADITION AND INNOVATION

***Celine White:
the eco-sustainable version
of an icon of the Devon&Devon style***

With its exquisitely classic style and soft touch surfaces that recall the texture of polished natural stone, the Celine White freestanding bathtub by Devon&Devon is a perfect blend that combines the elegance of tradition with the quality of innovation.

Devon&Devon

CREATED IN FLORENCE. INSPIRED BY THE WORLD.

Its monolithic body retains the pure lines and curved mouldings of the original Celine design intact, expressing its sophisticated classic inspiration with new materials and production techniques. Celine White is made with 100% White Tec Plus, an eco-sustainable material certified Green Guard Gold by LEED®, the American energy efficiency and ecological footprint classification system. It is manufactured using Biobased® plant-derived resins that replace part of the component traditionally derived from oil with corn starch.

100% made in Italy, Celine White is only available in matt white. The plug of the central drain is also in white-coloured White Tec, to ensure the extraordinary formal purity of the entire bathtub.
