The new version of the iconic wash basin preserves Nobel's Art Déco-inspired design though the pedestal has been replaced with a brass supporting structure inspired as much by the shape of crystal gin glasses as by the distinctive shape of Poul Henningsen lamps. The moulded base sculpted into three sections evoke the sculptural shape of the ceramic wash basin.

Practical and versatile, the Nobel console has a transparent glass shelf and a towel rail at the front and two rails to the side, which have been crafted to ensure they are exceptionally practical.

Upon request, the brass elements can be ordered in a choice of bespoke finishes, including chrome, light gold, polished nickel or bronze.
