DECOR SLABS

Décor Slabs is a collection of large precious ceramic slabs with an extraordinary visual effect.

Being a perfect synthesis of aesthetic refinement and functional practicality, the new coverings describe the love for tradition and the innovative ability, which have always characterized Devon&Devon.

The two decorative motifs are classic: the original revisitation of acanthus and the new Art Deco stylisation of peacock feathers. The technology is highly innovative: it exploits the versatility of porcelain stoneware and transforms its surface thanks to sophisticated high-resolution digital inkjet printing techniques and to flameworking; it is an additional firing step which fixes the colours on the slab, ensuring its extraordinary resistance.

The new Peacock motif, characterized by refined golden patterns made with pure gold, has been introduced to Cersaie 2019 in two versions: gold on a white background and gold on a white background and dusty sage.

The Acanthus motif is available in six different chromatic colours: Black&Gold, Golden Blue, Golden Pink, Painted Blue, Painted Pink, and White&Gold.

Designed for the most demanding architects and buyers, Décor slabs - thanks to their extra-large dimensions (129x240 cm x 6mm thick) - are the perfect solution for projects which combine a strong aesthetic taste with surprising formal cleanliness, ensured by minimizing the presence of tile joints.
